High frequency, contactless smart card credentials. Dual high-frequency migration card with MIFARE® DESFire® EV1 and LEGIC. 13.56 MHz contactless SIO Solution for MIFARE® DESFire® EV1 8K Card with LEGIC prime.

Description

Overview

293/296 SIO solution for MIFARE® DESFire® EV1

HID Global's SIO Technology-enabled cards for LEGIC® are ideal for organizations seeking to migrate from LEGIC prime 1024 to MIFARE® DESFire® EV1 technology.

The LEGIC multi-technology cards enable organizations to benefit the SIO-enabled MIFARE® DESFire® EV1 credential for seamless migration to HID Global's iCLASS SE platform, providing a future-proofed solution that delivers higher security, interoperability and increased performance. The cards are also backward compatible with LEGIC prime 1024 and interoperable with the existing LEGIC readers available on the market.

The LEGIC multi-technology cards are part of the broadest product line of trusted

Genuine HID® solutions in the market, and provide guaranteed interoperability with HID Global readers.

Key Features

Supports use of SIO Solution for MIFARE® DESFire® EV1 with LEGIC prime 1024 in one credential.

Supports existing base of LEGIC prime compatible readers.

Complies with ISO/IEC standards for thickness and use with all direct image and thermal transfer printers.

Available with magnetic stripe, contact smart chip and PVC or composite card body for more demanding environments.

Can be produced with visual security and anti-counterfeiting features or a custom logo.

Lifetime warranty.
